Our community offers a full continuum of services to ensure an abundant life:

Assisted Living is apartment style living with personal and healthcare services tailored to your needs. Assistance with medication management and activities of daily living can be provided in your apartment, allowing you to maintain maximum independence.

Assisted Living+ gives you peace-of-mind knowing that higher levels of care are available in an apartment should the need arise.

Memory Support offers security and support services designed for those with Alzheimer's disease or related dementias. Independence and productivity are maintained in a supportive, home-like environment.

Skilled Nursing Services provide 24-hour long-term nursing in a spacious room with maximum comfort for those residents requiring the most comprehensive care.

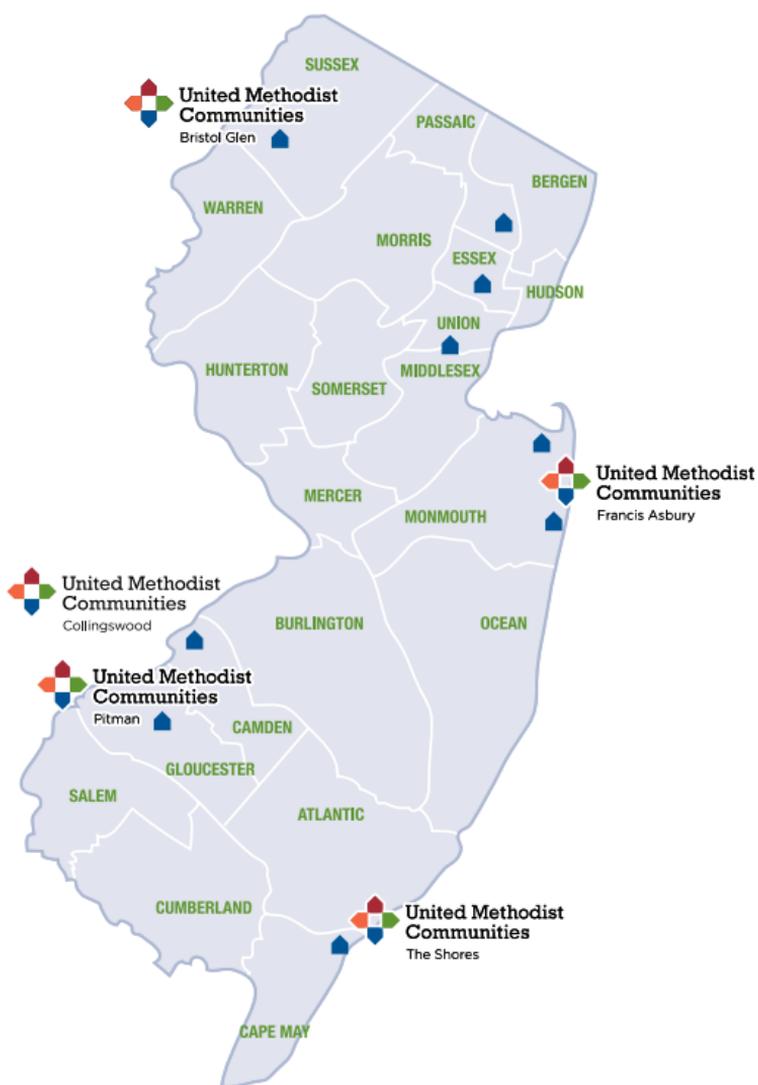

Rehabilitation or sub-acute care, is ideal for people who are being discharged from the hospital after an injury or illness, but who are not ready to return home. Our rehabilitation is results-focused for the fastest recovery.

Hospice Care, offered at Bridges, provides care for individuals with life-limiting illnesses who want to remain comfortable in a nurturing setting, supported by family and friends.

Respite offers a short-term stay when considering our community but want to try us out first. We also care for individuals while their family or caregiver is taking a vacation or a few days off.
